Subject: Brockton, Massachusetts
Wastewater Collection/Treatment Facility
Consent Decree Civil Action No.88-3194
2003 - 1st Quarter Report

Dear Mr. Goldberg:

On behalf of the City of Brockton, we submit a quarterly report for your consideration regarding the City's Consent Decree Civil Action with the Commonwealth. This information is an update of the individual ongoing wastewater projects within the City.

1. Miscellaneous Sewer Pipe Repair and Replacement

The City has been performing minor sewer rehabilitation based upon the findings of the City Wide Sewer System Evaluation Survey (SSES). As a result of this work, several gallons of extraneous flow have been removed from the sewer system. The attached Table 1 is a summary of sewer system repairs documented by the Brockton Sewer Department.

2. Phase I Sewer System Rehabilitation

Based on the recommendations of the City Wide Sewer System Evaluation Survey, several phases of rehabilitation construction are required to reduce quantities of I/I. Phase I is a \$2,000,000 effort to replace sewer pipe and repair manholes. Local funding is being provided for the entire project since the city didn't receive consideration for State Revolving Loan Funds. During the 1st quarter of 2003, this project removed approximately 123,030gpd of infiltration from the Brockton sewer system.

Mr. Goldberg
April 8, 2003
Page 2

3. Phase II Sewer System Rehabilitation

As part of FY03 budgeting, the City included another \$2,000,000 for the Phase II Sewer System Rehabilitation project. The design of this work is underway. This project is expected to eliminate significant sources of I/I.

4. Inflow Removal Program

The City has begun an aggressive private and public inflow removal program. This work includes the removal of sump pumps, roof leaders and other sources of extraneous flow that were identified during previous studies. The Department of Public Works is assisting property owners and other municipal departments with the procedures and solutions for removal of these illegal connections. Table 2 summarizes the inflow removed as part of this program. Since the inception of this program, approximately 2.4mgd of inflow has been removed from the collection system.

5. Pursuit of SRF Funds

DEP has listed Brockton eligible for funding as part of the SRF program. The FY03 Intended Use Plan identifies that \$20 million of the total \$59.7 million has been committed for treatment and sewer system improvements in Brockton. A portion of the \$20 million will be used to perform the Phase III Sewer System Rehabilitation project.

6. I/I Reduction by Whitman and Abington

Brockton continuous to negotiate with the Towns of Abington and Whitman regarding the reduction of extraneous flows tributary from their sewer systems. A summary of work performed by Abington during the 1st quarter has been enclosed and a summary from Whitman will be provided when the town completes the work.

We trust this information meets your expectations regarding the required progress report. Please feel free to contact me regarding any questions or comments on this information.

Mr. Goldberg

Table 2

Brockton Inflow Removal Program
Summary of Inspections, Repairs, and Potential Inflow Removal to Date
3/31/2003

*Property inspections scheduled to resume 4/8/03

PRIVATE PROPERTIES

Properties Inspected	174
Properties with no illegal connections	50
Properties with corrective work pending	9
Properties with non-inflow related repairs complete	3
Properties with inflow related repairs complete	112
Potential gallons of daily inflow removed (gpd)	<u>2,421,180</u>

NOTE - Quantity to date matches report dated 1/31/03. Two properties with water softeners were added to "no illegal connections", and one property with repaired cleanout cap was added to "non-inflow related repairs"

PUBLIC PROPERTIES

Properties Inspected	30
Properties with no illegal connections	26
Properties requiring corrective work	4 (Schools, Fire Sta No.1)

NOTE - Significant inflow reduction is anticipated at properties requiring corrective work (West, North, and South Junior High Schools, and Fire Station No.1)

To: Jim Howell, Supt.

From: Mike Donovan, Foreman

RE: I&I 2003 first quarter report

CC: Greg Roy, CDM

Dear Jim,

The following I&I work was performed between January 1st and March 21, 2003.

- Sent out letters regarding sump pumps to 3205 residents.
- Put sump pump notice on local access cable channel.
- Installed new pump controller at Hancock St. pump station that will monitor flow.
- Monitored all manholes that have been identified with wet conditions or possible leaks.
- Inspected 329 manholes in areas of high ground water tables.
- Severn Trent repaired (grouted & sealed) 12 manholes, which may remove approximately 50,000 to 75,000 gallons per day infiltration.

Future I&I work will include the following;

- Follow up on sump pump/excess wastewater remediation program.
- Removal of sump pumps.
- Replacing ductile iron castings with new cast iron castings.
- Continue monitoring the collection system.

Thank you,

Mike Donovan
Foreman
